

WiREFIT[®]

Electrical Conduit Pipes & Fittings

This product offers great chemical resistance, good impact strength, and low conductivity – making it a perfect fit for homes and workplaces. Additionally, it's high-heat deflection temperature and ductile behavior at low temperatures ensure safety at all times. It comes in various wall thicknesses to serve different purposes. The thin-wall variety can be utilized for embedded use in concrete while the heavier grades work well in direct burial and exposed work. Apart from being moisture-resistant, they are also immune to most corrosive substances.

Pipes as per
IS 9537 (Part 3)

Fittings as per
IS 3419
